

NEW

# LANDAYA®

CLEANER FOR SPRAYER AND FARM EQUIPMENT

- Multi-purpose cleaner and degreaser
- Removes phytosanitary residues\*
- Easy to use

\* sulfonyleureas, pendimethalin, copper oxide, etc.

## → Multi-purpose cleaner and degreaser

- Highly concentrated alkaline cleaner
- Degreases all types of surfaces: the outside of the sprayer and farm equipment
- Effective for the inside cleaning of the sprayer
- Prevents the redeposition of residues in the tank
- No risk of corrosion for metals
- Can be used in surfaces in contact with food after rinsing with drinking water

## → Removes phytosanitary residues

- High efficacy of surfactants combined with pine terpenes on the removal of residues
- Proven effectiveness in eliminating residues of the main active substances: sulfonylureas, pendimethalin, copper oxide, etc.

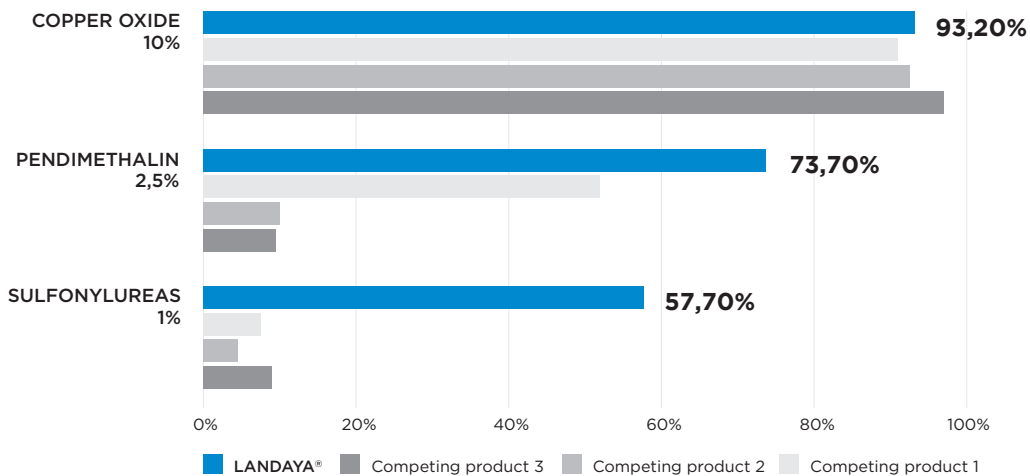

## → Easy to use

- Its liquid formulation allows an immediate use
- Soluble in hot and cold water
- Keeps the same efficacy independently of water hardness
- No foam
- Can be used in high-pressure cleaner

## LANDAYA® REMOVES PHYTOSANITARY RESIDUES

### LANDAYA® EFFICIENCY AND COMPETING PRODUCTS ON THE ELIMINATION OF DIFFERENT TYPES OF RESIDUES

#### RATES AND USE INSTRUCTIONS:

For an optimal cleaning, it is recommended to remove the filters, pre-filters and section filters. Once removed, they can be cleaned separately in a 2% solution of LANDAYA®.

#### Dosage for inside cleaning of the sprayer tank: 2%

Fill the tank to at least 10% of its capacity (tank rinsed and emptied beforehand). Prepare a 2% solution of LANDAYA® i.e. 2 liters for 100 liters of water.

Start the agitation in order that the cleaning solution starts circulating in the pipes and the boom of the sprayer.

Leave to work for 5 minutes before emptying the sprayer.

At the end of the cleaning, empty the tank and rinse it thoroughly till the complete removal of the product.

#### Dosage for outside cleaning of the sprayer tank: 2 to 5% following the dirt level

Prepare a 2-5% solution of LANDAYA® i.e. 0,2 to 0,5 liter for 10 liters of water.

Spray using a hand sprayer or a high-pressure cleaner.

Leave to work for 5 minutes. Then rinse with a jet or with a high-pressure cleaner.

#### WARNING.

Contains: Cyclademol, Menthanol, Multicomponent Terpinolene. May produce an allergic reaction. Causes serious eye irritation.
